

“Learn to listen carefully to everybody and to place yourself, as much as you can, in the soul of your interlocutor” (Marcus Aurelius)

Situated in an area of learning and youth, between the POLITEHNICA University and Regie Campus, the Teacher Training Centre resides in a friendly and modern building, which offers the optimum framework for training, research and informational activities.

The Teacher Training Centre is a leading institution for providing inservice-training and professional development for teaching professionals, being the promoter of change and innovation required by the pre-university educational reform.

The Teaching Training Centre works in partnership with institutions including academic societies, libraries, government organisations and NGOs.

**‘What we need to learn to do,
we learn by doing.’**

(Aristotle)

Our mission is to promote innovation and development within the context of continuing the educational reform in Romania and to provide the framework for the personal and professional development of faculty and the staff in the secondary education.

The Teacher Training Centre (TTC) has enhanced its activity through the experience acquired year after year, by applying best practices and modern techniques. The Teacher Training Centre offers a large variety of courses covering all curriculum areas.

Our goals are:

- ✓ *to strengthen the role of the TTC as a vital centre of reform, consultancy and information through a variety of activities*
- ✓ *to organise training courses covering all curriculum areas in order to meet the needs of teachers and staff involved in education*
- ✓ *to develop national and international projects and programs*
- ✓ *to strengthen and expand the network of trainers and collaborators of the TTC in their quality of associate teachers*
- ✓ *to create and produce educational software*

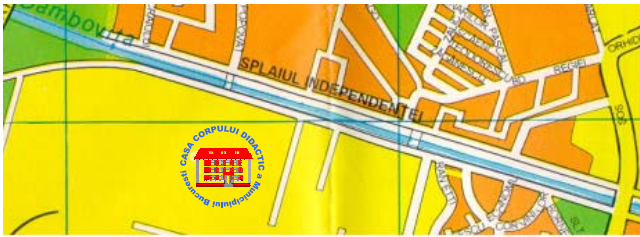

TRAINING PROGRAM

The TTC is the main promoter of reform within the network of schools: through the courses it provides, IT support, consultancy and the setting of realistic objectives for improvements in teaching and learning.
